## FYI OPENINGS

### 1. ROCK RULES

Thanks to a recent renovation that added significant square footage to its Miami showroom, **Opustone Granite & Marble** is now able to adequately display its extensive inventory of exotic stone surfaces via a corridor situated in the main area of the store. The new slab displays include all-natural stones, including marble, granite, limestone and travertine, which can be used for installation in flooring, kitchen backsplashes and surfaces, bathrooms, vanity tops, walls, patios and even driveways. 3200 N.W. 77th Court, Miami, 305/594-4200
